Policy Statement
for Providing Free and Reduced Price Meals to Students

This document is part of the Agreement between the SFA and the SA to administer the Federally-assisted School Nutrition Programs.

The School Food Authority (SFA) accepts responsibility for providing free and reduced price meals and/or free milk and after school snacks to eligible children. The SFA assures the North Carolina State Board of Education, Department of Public Instruction, that the SFA will uniformly implement the following policies to administer the program(s) in all schools and sites under its jurisdiction. In fulfilling these responsibilities, the SFA agrees to the following provisions:

A. With the exception of students participating in the CEP for whom meals are served at no cost, serve meals free to children from households whose income is at or below the free meal eligibility scale listed in the current income eligibility guidelines, or whose participation in Food and Nutrition Services (formerly Food Stamp Program), Work First Cash Assistance (formerly Temporary Assistance for Needy Families or TANF) or the Food Distribution Program on Indian Reservations (FDPIR) qualifies them for direct certification for free meals, or whose migrant, homeless, runaway or foster child status or other Federally-approved status as prescribed by the United States Department of Agriculture, entitles them for categorical eligibility for free meals;

B. With the exception of students participating in the CEP for whom meals are served at no cost, serve meals at a reduced price to children from households whose income is at or below the reduced price meal eligibility scale listed in the current income eligibility guidelines and/or use the state allocation and other available resources for the student co-pay for reduced price breakfast meals ($ .30 per meal) to serve breakfast meals at no charge to students who are eligible for reduced price meals;

C. With the exception of students participating in the CEP for whom meals are served at no cost, set reduced price charges for lunch and breakfast at or below the maximum reduced price allowed by regulations and below the full price of the lunch or breakfast. Reduced price charges for lunch shall be set at $.40 or less, reduced price breakfast shall be served free of charge to qualifying students using the state allocation provided under Session Law 21-345 or at $.30 or less and reduced price snacks shall be served at $.15 or less;

D. Ensure food is not used as a means of rewarding or punishing students for any purpose;

E. Ensure no physical segregation or other overt identification of, nor any other discrimination against, any child because of his/her inability to pay the full price. The names of children eligible to receive free or reduced price meals shall not be distributed, published, posted, distributed or announced in any manner, and there shall be no overt identification of any such children by use of special tokens, tickets, identification numbers or any other means. Further assurance is given that children eligible for free or reduced price meals shall not be required to:

1. Work for their meals;

2. Use separate dining room areas;
3. Go through a separate serving line;

4. Enter the dining room through a separate entrance;

5. Eat meals at a different time;

6. Eat a meal different from the one sold to children paying the full price.

F. Operate the School Nutrition Programs so that no child shall be discriminated against on the basis of race, color, national origin, sex, age, or disability, nor are students separated during the meal service based on gender.

G. Authorize the School Nutrition Administrator to serve as the Determining Official for the School; the Determining Official shall determine student’s meal eligibility status based on the 2020-2021 eligibility guidelines or participation in the CEP. This official agrees that information on the application will be used to determine the child’s eligibility for only those benefits designated by the parent/guardian. The determining official is also authorized to make decisions about extending school meal benefits to students residing in households where other students are directly certified for free meals and who are subsequently eligible to receive them based on USDA guidance. The determining official is also responsible for collecting, analyzing and reporting data to support the SFA’s Identified Student Percentage (ISP) should the district elect to participate in the CEP. (Note: the Determining Official may not serve as the Hearing Official. See Item L.) SFAs are responsible for assuring that the certification and verification processes meet all regulatory requirements and polices including the calculation of income frequencies.

H. Develop and make available to each child’s parent or guardian, a letter as outlined herein, including a household application for free or reduced price meals, at the beginning of each school year. Parents will be responsible for completing a household application and returning it to the school or Board of Education for review. Such applications and documentation of action taken will be maintained for three (3) years after the end of the school year to which they pertain. Applications are effective for one year. Any parent enrolling a child in a school for the first time, at any time during the year, shall be provided an application for meal benefits. If a child transfers from one school to another under the jurisdiction of the School, his eligibility for free or reduced price meals will be transferred to, and honored by, the receiving school. Parents or guardians will be notified, within 10 working days, of the acceptance or denial of their applications. Children will be served meals immediately upon the submission of a complete application; children whose applications are approved for free meal benefits shall not incur charges during the application processing period.

Household applications will not be provided to nor requested from families whose children enrolled in schools participating in the CEP unless there are students in the household that are enrolled in non-CEP schools. Students enrolled in CEP schools will be eligible for breakfast, lunch and snacks at no cost to the student beginning on the first day of school and continuing for the duration of the school year.

Use data from the State Agency’s Direct Certification Technology System to issue meal benefits to students who are directly certified for free meals and to notify the students’ households of free meal benefits and allow the household the opportunity to decline free meal benefits should they choose to do so.
Public Law 111-296 allows certification of a foster child for free meals, without application, if the School or other School Nutrition Program institution obtains documentation from an appropriate State or local agency indicating the status of the child as a foster child whose care and placement is the responsibility of the State or that the foster child has been placed with a caretaker household by a court. The foster child is categorically eligible and may be certified for meal benefits without an application. Households with foster and non-foster children may choose to include the foster child as a household member, as well as any personal income earned by the foster child, on the same household application that includes their non-foster children; this will streamline the application process and may help the foster family’s non-foster children qualify for free or reduced price meals based on household size and income.

In processing the application, the School would certify the foster child for free meals, and then make an eligibility determination for the remainder of the household based on the household’s income (including personal income earned by the foster child) or other categorical eligibility information reported on the application. Foster payments received by the family from the placing agency are not considered income and do not need to be reported. The presence of a foster child in the household does not convey eligibility for free meals to all children in the household in the same manner as Food and Nutrition Services (FNS), Work First Cash Assistance (formerly Temporary Assistance for Needy Families or TANF), Food Distribution Program.

When an application is denied, parents or guardians will be provided written notification which shall include the following:

1. the reason for the denial of benefits, (for example: income in excess of allowable limits or incomplete application);
2. notification of the right to appeal the denial of benefits;
3. specific instructions on how to appeal; and
4. a statement reminding parents that they may reapply for free and reduced price meal benefits at any time during the school year. (Note: The reasons for ineligibility shall be properly documented and retained on file at the SFA level.)

I. Select and verify by November 15 the eligibility of a sample of the approved free and reduced price applications on file as of October 1. The SFA further agrees to maintain the following records relative to verification for a period of three (3) years after the end of the fiscal year:

1. total number of applications on file as of October 1;
2. documentation of the sample selection; and
3. a summary of all verification activities and outcomes.

J. Conduct a second review or independent review of all applications to ensure the applications are complete and benefits are accurately issued. This includes applications that were initially determined to be ineligible for free and reduced price benefits (i.e. denied by the initial reviewer).
K. Designate individuals within the School who are authorized to serve as liaisons in the following areas:

- Migrant Liaison;
- Homeless/Runaway Liaison;
- Head Start Liaison;
- Even Start Liaison; and
- Foster Child Liaison.

These liaisons will be authorized to provide official, accurate information to the School’s determining official for the purpose of determining the categorical eligibility for students who meet pre-established criteria and for using this information as part of the formula to determine the School’s Identified Student Percentage for the CEP.

L. Designate a Hearing Official to establish and use a fair hearing procedure under which:

1. a household can appeal a decision made on the original application;
2. a household can appeal an adverse action made because of verification of an application; and
3. the SFA can challenge the continued eligibility of any child. During the appeal and hearing, the child who was determined to be eligible based on the application submitted will continue to receive free or reduced price meals or free milk.

The Hearing Official must be someone not involved in the original eligibility determination. It is suggested that the Hearing Official hold a position at a higher administrative level than that of the Determining Official.

HEARING PROCEDURE

Prior to initiating the hearing procedure, the school official, the parent(s) or the guardian may request a conference to provide an opportunity for the parent(s)/guardian(s) and school official(s) to discuss the situation, present information, obtain an explanation of data submitted in the application and the decisions rendered. Such a conference shall not in any way prejudice nor diminish the right to a fair hearing.

The designated hearing official shall ensure that the hearing procedure provides the following for both the household and the School:

1. A publicly-announced, simple method for making an oral or written request for a hearing;
2. An opportunity to be assisted or represented by an attorney or other person;
3. An opportunity to examine, prior to and during the hearing, the documents and records presented to support the decision under appeal;
4. Reasonable promptness and convenience in scheduling a hearing, and adequate notice as to its time and place;
5. An opportunity to present oral or documentary evidence and arguments supporting a position without undue interference;

6. An opportunity to question or refute any testimony or other evidence and to confront and cross examine any adverse witness(s);

7. A fair hearing that will be conducted and a subsequent decision made by an official who did not participate in the original decision under appeal (or any previous conference);

8. A fair and impartial decision made by the hearing official that will be based on the oral and documentary evidence presented at the hearing and entered into the hearing record;

9. Written notification of the decision to all parties concerned and any designated representative thereof;

10. A written record, including the decision under appeal, any documentary evidence and a summary of any oral testimony presented at the hearing, the decision of the hearing official and the reasons therefore, and a copy of the notification to the parties concerned of the hearing official's decision; and,

11. Retention of such written record must be retained for a period of three (3) years after the close of the school year to which it pertains; these records must be made available for examination by the parties concerned or their designees at any reasonable time and place during such period.

M. Submit a public/press release annually to notify the public of the process for applying for free and reduced price meal benefits. At such time during the course of the year the School is informed of major employers contemplating or experiencing large layoffs, or other conditions that would result in loss of income to households, the School will provide specific information about applying for free or reduced price school meal benefits to employees whose children may be enrolled in the School. In addition, the School agrees to provide such a public release whenever there is a change in eligibility criteria, unless specifically exempted from doing so. The public release must inform the household to contact the school if any student was not listed on the application.

N. For non-CEP schools, establish written procedure(s) to collect money from children who pay for their meals and milk and to account for the number of free, reduced price, and full price and alternate meals served. The procedure described will be used so that no other child in the school will be aware of such procedure or the identity of the children receiving free or reduced price meals or free milk. For schools participating in the CEP, establish a written procedure to count all reimbursable breakfasts, lunches, and snacks served to students at no cost. The procedure shall ensure all students enrolled in CEP schools receive meals at no cost and that only one meal or snack is claimed per student.

O. Submit to the North Carolina Department of Public Instruction, School Nutrition Services, 6324 Mail Service Center, Raleigh, NC 27699-6324, any revisions to the administrative procedures outlined in this policy statement before implementation. Such changes will be effective only upon approval by the department. All changes in eligibility criteria must be publicly announced in the same manner used at the beginning of the school year.
My signature below indicates that I understand and agree to all the terms and conditions contained in the 2020 – 2021 Agreement and Free and Reduced Price Policy Statement to operate the Federally-assisted School Nutrition Program(s) and will ensure all school personnel abide with the provisions set forth in the Agreement and Policy Statement.

- Inform and update stakeholders and the public (including parents, students, school administrators and staff, and the community) about the content and implementation of the Local Wellness Policy;

In North Carolina, Schools are required to submit a copy of the current Local Wellness Policy to the NCDPI and submit any modifications to the policy to NCDPI once adopted by the local board of education. Schools must submit an annual written report indicating the school’s progress towards achieving the goals as stated in the Healthy Active Children Policy and the Local Wellness Policy and conduct at least a triennial assessment to evaluate the extent to which schools are in compliance with the Local Wellness Policy, how the Local Wellness Policy compares to statutory requirements and the school’s progress made in attaining the goals of the Local Wellness Policy and make the evaluation results available to the public.

Smart Snacks Options Declaration Form* (2020 – 2021)

School Food Authority (SFA):___________________________SFA #:_______

Please choose from one of the five options described below and place an X on the corresponding line.

______ Option 1: The LEA may extend the existing SBE Policy from 12:01 AM through 30 minutes after the dismissal bell rings (which prohibits the sale of foods and beverages to students in competition with the school nutrition program until 30 minutes after the dismissal bell rings.)

______ Option 2: The LEA may turn all vending sales, their profits and the responsibility to sell products that meet the Smart Snacks nutrition standards over to the school nutrition department to ensure all foods and beverages sold on campus are sold only through the school nutrition program and comply with the Smart Snacks nutrition standards. Foods and beverages that meet the Smart Snacks requirements would be available through vending machines to students throughout the instructional day in locations to be determined by the LEA. Under this option, school nutrition personnel would be responsible for compliance with Federal regulations and for providing required documentation during a review.

______ Option 3: The LEA may purchase foods and beverages that meet the “Smart Snacks” standards from the school nutrition department; simultaneously, the LEA may also purchase the expertise and administrative services of the school nutrition department to determine which products meet the standards. The LEA may also purchase the services of the school nutrition department to maintain all required documentation (including but not limited to procurement specifications, bid awards, contracts, nutrition facts labels, allergen labels and ingredient lists) indicating all foods and beverages sold to students on in any location on the school campus including vending machines, school stores and other sales venues outside the school nutrition department meet the Smart Snacks nutrition standards. Under this option, School Nutrition Personnel will provide documentation to the LEA for use during an Administrative Review or Audit. The LEA will ultimately be responsible for demonstrating compliance with the Smart Snacks Rule. Consistent with SBE policy, under this option, foods and beverages may not be sold in competition with the school nutrition program from 12:01 AM until after the cafeteria closes for the day.

______ Option 4: The LEA will be responsible for purchasing all items to be sold to students outside the school nutrition program and will be responsible for determining whether the products sold in school-owned vending machines, school stores, and other venues anywhere on the school campus comply with the Smart Snacks nutrition standards. LEA personnel will be responsible and accountable for obtaining and maintaining documentation for all purchases (including but not limited to procurement specifications, bid awards, contracts, nutrition facts labels, allergen labels and ingredient lists) for each school within the LEA. Under this option, LEA personnel outside the school nutrition program will be responsible for compliance during an Administrative Review or audit. Consistent with SBE policy, under this option, foods and beverages may not be sold in competition with the school nutrition program from 12:01 AM until after the cafeteria closes for the day.

______ Option 5: *Combination of Options – Please note prior approval of the SA is required if the LEA chooses a combination of options. Submit documentation to describing, in detail, the reason more than one options is necessary.

My signature below indicates that I understand the option chosen for the LEA and I agree to inform school personnel of the option and of their responsibilities to comply with the option.
